THE IRON TURKEY CHALLENGE

Legend has it that deep within the undergrowth of Balboa Park struts the voracious Iron Turkey. Many a bold archer has risked arrow and limb confronting the fiend, only to have their precious shafts shatter to shards of carbon upon the beast's iron-scaled hide. The tale goes that one courageous archer, known only as Dave the Dauntless, fired a magical black arrow at the fowl beast. This shot broke away small scales from its Iron-clad breast revealing two small vulnerabilities. A mighty archer of great skill and cunning could exploit this weakness and successfully impale the creature, as for the rest.... Your arrows will surely splinter.

Hone your skills in anticipation, shoot until your limbs ache and your fingers bleed, for that is what it will take to triumph in this challenge.

Join our Iron Turkey 3D Challenge on Sunday 4th of November 2018 and test your nerve.

This a 34 target, ONE arrow per target shoot, including the Iron Turkey and many other interesting shots to test your skill: The Blind Shot, the Jakes, and the Distant Gobbler.

>>NO RANGE FINDERS ALLOWED!!

Iron Turkey Entry Fees: Active Duty & Retired Military (with ID): FREE!
